SKILLS

- **Languages**: C++, Java, C, Python
- **Frameworks**: HTML and CSS, Streamlit, Flask, Spring boot
- **Tools/Platforms**: MySQL, Excel, Power Bi, Matplotlib, Seaborn, Numpy, pandas, Git & GitHub
- **Computer Science Fundamentals:** Data Structures & Algorithms, Networking Basics, Operating Systems, Database Management System, Object-Oriented Programming
- **Soft Skills**: Team Management, Adaptability, Leadership, Curious Learner

PROJECT

Skillify – Student Skill Analyzer & Career Readiness Platform| GitHub Since August 2025

- Created an end-to-end student skill analysis platform that evaluates technical, aptitude, and communication skills through profile inputs and branch-wise quizzes.
- Integrated a machine learning model to predict student job-readiness using quiz scores across multiple core subjects.
- Developed separate student and admin views to monitor performance, analyze branch-wise insights, and manage overall platform analytics.
- Delivered scalable, data-driven system that helps students track progress, improve skills, and make informed career decisions.

Diabetes Predictor using ML | GitHub February 2025 – March 2025

- Built diabetes prediction app enabling people with diabetes to check their risk by entering personal health details
- Developed the platform with a structured frontend, backend processing logic, and a trained prediction model for accurate results.
- Implemented data preparation and evaluation processes to ensure reliable model performance.
- Delivered an easy-to-use system that provides quick and trustworthy diabetes predicts outcomes for users.

TRAINING

Placement Ace: Java Bootcamp (LeetCode-Codeforces Edition) | LPU June 2025 – July 2025

- Completed an intensive 50+ hour Java Bootcamp focused on Data Structures, Algorithms, and hands-on problem-solving using LeetCode and Codeforces.
- Utilized Java, Java Swing, and core Data Structures & Algorithms to build a functional Student Record Manager desktop application.
- Implemented efficient record storage, retrieval, and dynamic sorting features using HashMap and custom sorting logic to manage and display student data effectively.
- **Tech Used:** Java, Java Swing, Core Data Structures & Algorithms.

CERTIFICATES

- ChatGPT- Prompt Engineering | **Infosys** July 2025 – August 2025
- Cloud Computing | NPTEL January 2025 – April 2025
- The Bits and Bytes of Computer Networking | Google |Google July 2024 – August 2024

ACHIEVEMENTS

- Solved 250+ DSA problems on LeetCode & GeeksforGeeks December 2025
- Runner-up at Neural Nexus Hackathon (Cognitia'25) – Built an ML-based Diabetes Predictor web app March 2025
- Serving as Senior Executive Member of Spark, mentoring juniors and leading workshops. Since 2025
- Participated WeForShe Hackathon and completed phase 1 Hacker-Ramp organized by Myntra. August 2024

EDUCATION

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA:6.95*** *August 2023 - August 2027*
- **Jai Durga Senior Secondary School** Rajasthan, India
  Intermediate; ***Percentage:77.20*** *April 2021 - March 2022*
- **Vidyashram Secondary School** Rajasthan, India
  Matriculation; ***Percentage:80.50*** *April 2020 - March 2021*
